

Trulite Completes Texas Tempered Glass Acquisition

Deerfield Beach, Fla. – November 19, 2014 – Trulite Glass & Aluminum Solutions, LLC. (“Trulite”), one of North America’s largest architectural glass and aluminum fabricators, today announced it has finalized the acquisition of Houston-based Texas Tempered Glass, Inc. (“TTG”), a leader of high performance glass products for architectural, industrial, commercial and custom applications. Financial terms of the private transaction were not disclosed.

With the completion of this transaction, Trulite will expand its presence in the Texas market with a wide array of tempered, insulated, and mirrored fabricated offerings supplying materials for architectural, industrial, commercial and custom applications. Additionally, the TTG product offering will be enhanced to include laminated and PPG/Guardian certified products.

“Our proven commitment to operational excellence has positioned us well to meet the rapidly increasing demand for quality fabricated products,” said Paul Schmitz, Chief Executive Officer of Trulite Glass & Aluminum Solutions. “We will continue to grow organically and through strategic acquisitions to meet this demand and better serve the industry.”

TTG marks Trulite’s fourth acquisition since April 2011, demonstrating the company’s financial strength.

“We are very excited to have Texas Tempered Glass join the Trulite organization and to now have a second facility to service the Houston market,” said Paul Mahedy, Trulite South Region VP. “TTG has established itself as a true ‘service center’ provider with exceptional lead times and customer service. We are committed to offering the same high level of service and quality the glazing community has come to rely on from Texas Tempered Glass.”

About Trulite Glass & Aluminum Solutions

Trulite Glass & Aluminum Solutions is one of North America’s largest architectural glass and aluminum fabricators. Trulite distributes and manufactures architectural aluminum, insulated units, mirrors, tempered, laminated, and decorative glass from their twenty-seven locations throughout the U.S. and Canada.
